

The more I think about you being an anthropomorphic climate denier, the more I realize you are just a baby Trump. You really don't have any common sense, you really don't believe in science you've just learned a little content but no real scientific thought. You are not a biologist yet you think you know more about biology than the worlds best biologists, you are not a climatologist, yet you know more than the worlds best climatologist, you are not a geologist yet you know more than the worlds best geologists, you are not an archeologist yet you know more than the worlds best archeologist, on and on. Your guide book is a book stole from the Sumarians 4000+ years ago, and rewritten as Jewish mythology, you believe that the son of Joseph was more than a self proclaimed prophet. You've bought into a religion created by a liar that was not even saved by faith based contrition and then that religion was massaged and picked apart for political reasons by a group of corrupt and evil self proclaimed demagogues. You're entire life is a lie and you are too too-gutless to seek the real truth. What a coward!!!!!!!!!!!!!!!!!!!!!! You make me sick, how can you call yourself a man, you brainwashed fool. If you would look up how brainwashing is accomplished you would see that religion and attending church is the the ultimate brainwashing environment for the weak willed! You know: Like Scientology, Mormonism, Hinduism, Christian Science, Muslim, Branch Davidians, Johova Witnesses, Church of Christ, Heaven's Gate, etc. You are an arrogant idiot if you believe you for some reason have the absolute inroad to the "one true religion". How can someone that will not accept any amount of scientific evidence, say they have common sense?
